Judge (s) of the special: *Oleg Abramova*

Student judge: *no*

Number of cats present: *17*

Number and distribution of cats in individual judgment

	Number adult	Number neuter	Number 6/10 month	Number 3/6 month
Males	<i>4</i>	<i>2</i>	<i>1</i>	
Females	<i>7</i>	<i>1</i>	<i>1</i>	<i>1</i>

Varieties represented: *LH varieties*
 Or colors represented: *many different*

Number and distribution of specific classes

	Number
Breeding lots - three sons or daughters of the same breeding animal (male or female) - examine the quality and homogeneity of the offspring.	<i>0</i>
Lots 3 generations - three subjects (eg father, daughter, grandson) from three successive	<i>1</i>

<p>generations</p> <ul style="list-style-type: none">- examine the quality and transmission of morphological characters.	
<p>Veterans (over 6 years old)</p> <ul style="list-style-type: none">- individual, cats over 6 years old- examination at D-Day + putting into perspective (evolution with age, evolution of the type of race over time)	

❖ Global assessments on the subjects presented (the boxes are extensible, you can go on two pages if necessary ...):

	strong points	weak points
heads Shape - profile - ears - eyes - snout - chin	All heads look similar.	Some of cats has a bit weak chin
Body Size - frame - musculature - legs - tail	All cats have strong body with high legs.	
Dresses Length - texture - nudity - color - patterns	A lot of different colors, recognized, and not recognized.	
Condition / Presentation	Most cats have very good grooming.	
Overall appreciation of quality In standard / lack of type / over-type	Most cats are very close to standards. Some of them have not important faults.	

Synthesis of judgments 3 descendants of the same breeding animal

⊞ Overall assessments of quality, homogeneity, etc. lots 3 descendants

- Notions of transmission / homogeneity / breeding work / "imprint" of the breeding animal.

Summary of judgments of 3 generations batches

⊞ Overall assessments of quality, homogeneity, evolution, transmission ... in batches

- Notions of transmission / evolution / breeding, lineages.

I'm agree, that almost all cats have good standards points position.

Summary of veterans' judgments

⊞ Overall assessments of quality, type, etc. Veterans presented

- Notions of evolution of the type of race over time, interpretation of the standard / participation in breeding groups.

Cat is in good quality, good in standard!

Overall balance sheet

→ Specific remarks and points of attention in relation to the standard of the breed

I would like to see a bit longer tails. Some of them are on limit.

→ General comment / Appreciation

I'm glad to see Russian Native Breed in France. And I'm glad to meet the „fanats“ of the breed. Want to wish them more & more Success!

→ Remarks on organizational conditions (see ad-hoc questionnaire)

(Judgment space, briefing-debriefing space, distribution of cats, expo timing and Best in Show)

I thank of organizers for the invitation me at such big good show. I've seen some cats, which I can't see in Russia often.
